Action on JIS _____ involves the forwarding of replies to inquiries from CG USFET and CG USFA. The proposed replies contained in Appendix "A" are predicated upon policies enunciated by the State-War-Navy Coordinating Committee at the request of the Joint Chiefs of Staff. Inasmuch as all policy questions relating to exploitation and denial of scientists and technicians have been determined on a governmental level, and no committee or individual except SWNCC can change the policy already established, it is unnecessary to refer the proposed replies to the governing committee of JIOA.
